Ski pass. Information.

Children

Children born in or after 2017 ride for free in accordance with the conditions of carriage. Children born between 2008 and 2016 inclusive ride at the child rate. ID required! Murrml/Berta card: The ski card for all children born from 2017 to 2020 can be collected free of charge at the cable car ticket counter (identity pass required).

Youth rate

Youth born between 2007 and 2004 inclusive ride at the Youth rate. ID required!

Senior citizens

Ladies and gentlemen born in or before 1958 ride at the discounted senior citizen's rate. ID required!

Young Family ticket

Our offer for parents with small children under three years of age. The young family ticket is available for bookings of 3 days or more (no season tickets) at adult price. The ticket includes both names. They are only available at the cable car ticket offices. Parents will be able to take turns to skiing in the resort. Please note that ski ticket pick-up is only possible in the valley, as a valid ski pass is required for the ascent to the ski resort with ski equipment. Separate tickets have to be purchased if both parents want to ski in the resort together.

People with physical disabilities

Physically disabled people with an official disability ID are entitled to the following special rates: for up to 60% disability, a 15% discount applies, and from 70% disability, a 30% discount applies. The necessary, registered accompanying persons are entitled to the same discount as the disabled person. There are no concessions for attractions, evening events, highlights or in the mountain restaurants.

Advance ticket sales

These can be bought the day before at the main ticket offices in the valley terminals. Tickets can be used as of 3.00pm.

Overlapping periods

In the event of overlapping season periods, our ticket sales computer automatically calculates a pro rata price.

Extensions

Ski passes with a validity of 6 days and over can be extended without interruption once at a special rate, upon presentation of your Guest Card.

Refunds

Refunds are available in the case of skiing accidents which have been confirmed with a doctor's note and with immediate surrender of the ski pass at the cable car ticket offices. Days of use are the days which have elapsed between the date of issue and date of surrender of the ski pass at the ticket office. If the ski pass is surrendered by 9.30am, this day will not be counted. What counts is the date the ski pass is surrendered, not the date of the accident. A medical note from a local doctor or a hospital is absolutely necessary and can be submitted at a later time. Bad weather, the risk of avalanches, unforeseen departure, illness, epidemic or pandemic events, guest quarantine, restriction or interruption of operations, closure of ski runs and individual facilities, etc. do not entitle the guest to a refund or extension. Please check the current service and weather conditions before you buy your ski pass. At the beginning and end of the season, owing to circumstances, there may be restrictions to the pistes and facilities available.

Loss of tickets and ski passes

Lost tickets (single tickets and non-skier tickets) and ski passes valid up to 2 days will not be replaced. If the KeyCard is lost, ski passes from 3 days of validity stored on this data storage medium can be locked against further use upon presentation of the locking-number voucher (you will receive this when purchasing the ski pass). A replacement pass will be issued for the remaining period subject to payment of a € 10.00 blocking fee. The value of the lost KeyCard will not be re-placed.

General provisions

The "Serfaus-Fiss-Ladis" ski pass entitles the holder to use all of the lifts in service during the day (9.00am to 4.00pm) within the period of validity in accordance with the price terms and conditions of carriage. Ski passes are not transferable. A ski pass may not be traded in at a later date in exchange for another, nor may the period of validity be postponed to a later date. The individual services to which the ski pass entitles you shall be provided by the legally independent businesses. The business that sells the pass only acts for the other businesses as their representative. Only the respective business is therefore obliged to provide the individual services and to pay damages in the case of any incidents! Tickets and ski passes are non-transferable.

Inspections and fraudulent use

Access controls are carried out by readers in the bottom stations of the cable cars. Please follow the instructions of our staff and use the control devices properly. Card controls are carried out regularly in the respective ski resort. The guest is obliged to carry the ski pass with him at all times. Any improper use or circumvention of the access controls will result in the immediate revocation of the ski pass. We expressly reserve the right to file a criminal complaint. Anyone found in the controlled areas without a valid ticket must pay a penalty amounting to twice the daily ticket rate. The receipt of the paid penalty fee is valid as a ticket on the same day. Please note that according to the Austrian Eisenbahnerhaftpflichtgesetz Liability Act, only guests with a valid ticket are covered by insurance.

Do not buy cards through third parties

These could be blocked! Not to mention the fact that you would be in violation of the law.

Our ski passes are subject to the "photo compare" access control system. This means that at the turnstiles of the feeder lifts, a photo of the ski pass holder is sometimes taken, which can then be compared with images taken randomly when passing through technically equipped turnstiles in the ski resort. The corresponding pictures are stored in encrypted form and deleted after the ski pass has expired. This allows members

Operating and opening times.

NEWS.

New viewing platform at the Schönjoch summit cross

From this winter season onwards, there will be a new viewing platform at the start of the Frommes downhill run with a magnificent all-round view of the surrounding mountains and peaks. From here you can admire Germany's highest mountain (Zugspitze - 2,962 m), South Tyrol's highest mountain (Ortler - 3,905 m) as well as Tyrol's highest mountain (Wildspitze - 3,768 m).

The new 10 EUB Komperdell - starting winter 2023/24

The Seilbahn Komperdell GmbH is investing over 50 million euros in the new Komperdell cable car, which will provide new riding comfort up the Komperdell from December 2023!

Intensive construction work on the new Komperdell cable car has been underway since spring 2022. It is scheduled to go into operation at the beginning of the 2023/24 winter season. Compared to the current course, in future the route will lead up to the Komperdell via a new mid station in the Mittelabfahrt slope.

The 10-seater cabins will provide a transport capacity of 3,000 people per hour and boast a modern design and a spacious interior. In order to make it easy for children to get on and off, the cable car travels very slowly in the stations; these areas are of course suitable for prams and are barrier-free. The new bottom station will be built a little further north into the slope - this will make the access area to the Sunliner much more ample and enlarge the forecourt between the Komperdell and Alpkopf cable cars. The ski storage area in the existing bottom station building will be generously extended and equipped with approx. 5,000 parking spaces.

The top station will be integrated into the existing building on the Komperdell, and all levels will be connected via escalators and lifts. The new mid station offers several advantages. On the one hand, the Gampen area will be less congested, as ski school groups can comfortably ski down the Mittelabfahrt slope to the mid station. Secondly, the last, steeper section of the descent can be bypassed with a downhill run from the station to the valley.

Through an additional (winter) hiking trail, the Leithe Wirt restaurant is only a few minutes' walk from the station.
