

BEHIND THE SCENES. SERFAUS. FISS. LADIS.

What actually happens behind the scenes at the cable car stations and how do the cable cars actually work?

In the Serfaus-Fiss-Ladis region, you can learn these secrets and many more. A tour around the piste preparation machine workshop will give you a small taste of just how much time and careful handwork is required to keep everything running smoothly.

While in Serfaus the subway is a fixed part of the tour, in Fiss the technology of the Schönjochbahn will be closely inspected. After learning all about our snowmaking technology, everyone can enjoy coffee and cake together and there is still plenty of time for you to pose any more burning questions you might have.
