Caching Park.

The trendy version of a treasure hunt.
Stomachs on the ground, Stone Age men used to throw themselves on their stomachs on a time to find out the scent and read the traces of the animals they wanted to hunt. Detectives and inspectors used a magnifying glass to track down evidences. Nowadays, there's geocaching with a smartphone, QR code and lots of technical intricacies. Take your kids on a modern-day scavenger hunt!

With the Wo-Bä-Lu Cache in Fiss, the Bear Cache and Gold Cache Högsee in Serfaus and the Interactive Village Tour in Ladis, the Serfaus-Fiss-Ladis holiday region offers four geo-caching opportunities for all ages. Simply scan the QR code to download the Caching Park app.

Fichtenliesl.

Dear kids, My name is Fichtenliesl. In summer 2022, we experience unforgettable moments together at our kids' clubs.

I am an old lady and live with my best friend Seppi, who is a woodpecker, as well as other forest animals and birds in the dense Serfaus-Fiss-Ladis forest. One day there was a raging storm. All forest animals looked for safety, except one: Seppi. He latched on to me, but the storm was so strong that he was blown away and fell down the tree. He finished landing on the forest edge.

Everyone looked for my best friend Seppi: kids, animals and, of course, me. We found him in a blueberry bush, eating as if no one was looking. He felt like in paradise: everywhere delicious earthworms, beetles and blueberries. His face was blue and purple from the berries. "Oh my god! I am so happy, that you are ok!". I was overjoyed, that Seppi came back to me. Since then, I have been visiting him regularly. And I don't feel like an old lady anymore. Quite the opposite! I love to wear my red bow - like a young lady.

Action with the whole family at the kids' clubs.

Outdoor escape room.
The magical portal was closed for a long time to protect the world from evil. Suddenly, the portal opened and the world was meant to lapse into chaos. Come and help us to close the portal. Set off on a journey of adventures through Serfaus-Fiss-Ladis and solve all sorts of riddles.

Can this be true?
Balloons that do not burst? Exploding surprise eggs? Water as rocket fuel? There are loads of surprising and diverse experiments to demonstrate how our world functions.

Survival games guarantee plenty of fun.
How to protect against rain, wind and cold? How to deal with obstacles? Who is best at playing Mikado with limbs of a tree? And who wants to be given tips and tricks to survive in the forest?

Family craft day in Fiss.
At our wood workshop, you and your Mum and Dad can get creative and build your own Berta's car, Berta's clock or Berta's treasure chest.
