## BEHIND THE SCENES. SERFAUS. FISS. LADIS.

What actually happens behind the scenes at the cable car stations and how do the cable cars actually work? In the Serfaus-Fiss-Ladis region, you can learn these secrets and many more. A tour around the piste preparation machine workshop will give you a small taste of just how much time and careful handwork is required to keep everything running smoothly. While the underground train is an established part of the tour in Serfaus, the tour takes a closer look at the technology of the Schönjochbahn cable car in Fiss. After learning all about our artificial snowmaking technology, everyone can enjoy coffee and cake together and there is still plenty of time for you to pose any more burning questions you might have.

## SERFAUS UNDERGROUND.

The decision to alleviate traffic in town was made already back in the 1970s. By 1985, the Serfaus underground was fully operational! After more than 30 years, the underground (including stops) was completely renewed and modernised between 2017 and 2019. The renovated train system now offers passengers and guests more than just transport: all stations were thematized and equipped with stories about the development of Serfaus!

**Parking area station:** Family paradise starts here. The new access tunnel conveniently connects the parking area with the station. Meanwhile, numerous play stations help to shorten waiting times for kids riding the underground.

**Church station:** Spread over two floors, explore both the village's cultural history and tourism development. Exciting stories about Serfaus will make you forget the time... and you might just miss the next train!

**Center station:** This station is dedicated to the village's clubs and associations, which are presented on large informational boards. There's even a large hidden object picture, i.e. lenticular lens, to entertain kids!

**End station:** This area is dedicated to technology. An exhibition at the station explains in detail how the Serfaus underground works. The highlight is certainly the large adventure machine, which delights visitors young and old!

Find out more about the underground in our weekly look behind the scenes. Reservation essential!

## SUNSET DINNER MASNER. SERFAUS.

**Every Tuesday:** As the fantastic skiing day draws to a close, another special experience awaits you: sunset at the Masner! As the setting sun casts a warm, red glow over the mountain tops, you will already be sipping your aperitif. After that it's time to go inside the cosy ski huts and enjoy the delicacies on offer. Shuttle service for non-skiers available from Lazid top station for a fee.
