### INFO COVID-19

The health of our guests and staff is our most valuable asset. The ski instructors are service providers, and in direct contact with many of our guests every day; it's part of their job. This winter, some accompanying measures are necessary to keep our guests and staff as safe as possible, and at the same time allow all of our ski courses and offers to go ahead.

These measures are constantly evaluated and adapted in order to meet the government regulations, the rules of our partners – particularly those of the cable car operators – as well as the guidelines developed by our industry organisations and the healthcare authorities in cooperation with local medical advisors. We also have to respond to changes in the local infection rates as well as those in the countries our guests hail from at short notice.

You can find the safety measures currently applicable at the Skischule Serfaus online at:

[www.skischule-serfaus.com/covid19](http://www.skischule-serfaus.com/covid19)

### We start right in the middle of the ski area

Our meeting points are located directly in the ski area.

This offers you unique benefits.

Thanks to the perfectly located starting points, you won't lose any time.

Your fun skiing experience with your snowsport instructor therefore begins straight away, and you'll be able to enjoy a full-length lesson without losing valuable time in the cable car!

### Double ski school offer

The starting times of individual ability groups will be flexibly adapted to the respective situation and announced in good time. If there are not enough participants, groups with different levels of ability may be put together! The group size is kept to a minimum. We will try to be as flexible as possible, especially during the busy holiday weeks, to ensure that all of our guests can take part in the ski courses.

When buying your ticket, you can choose one of the two ski school starting times listed below. These are also directly linked to the earlier or later meal and finishing times. This staggered teaching model avoids long waiting times for cable cars, restaurants, sports shops and teaching group allocation, offering you far more opportunities to enjoy your holiday.

You are free to choose one of the two available ski school starting times when buying tickets.

## Friends Trails

Learn to ski with ease with FRIENDS TRAILS.

Tailored specially to the needs of children, varied and with fun guaranteed: the Serfaus ski school is starting the winter season with new FRIENDS TRAILS for children.

The FRIENDS TRAILS are a unique concept, which allow children to learn to ski very quickly and easily. They combine fun and play with the newest findings in ski technology and introduce children to the most important movements of skiing in a fun way. Parents will be astonished how quickly young skiing beginners become great experts!

The FRIENDS TRAILS consist of three different descents on one practice slope, which teach different skills. Once the children have mastered all three trails, they are ready for the “real” slopes.

## Covered adventure conveyor belt

Enjoy a comfortable trip back to the Kinderschneealm with the new, completely covered conveyor belt. Thanks to its wooden construction in the style of a hut, the conveyor belt perfectly hugs the landscape.

Let Murmli and his friends accompany you on the trip to the Kinderschneealm. Once you reach the top, you'll find the giant Murmli there waiting for adventurers big and small!

## Foodie experiences in the Murmlirest!

A visit to the Murmlirest is far more than just normal lunchtime supervision! The ski instructors eat with the children and enjoy an unforgettable experience with them in the hour-long lunch break. The Murmlirest invites kids on a magical journey with Murmli and the snow ghost. The special food was tested and chosen by children, for children. There is a new menu to choose from every day.
